Set them free!
More than 9.000 Palestinians
are being held hostage!

Since 1967, Israel has imprisoned close to a million Palestinians in Zionist prisons, including 17,000 women and 50,000 minors. There are currently over 9,000 Palestinians behind bars in the Occupied Territories of Palestine. In recent years, between 500 and 700 children have been arrested every year.

At least 10 Palestinians have died in Israeli prisons since 7 October. Dozens of prisoners were also killed. It is not known how many were executed in Gaza.

Most statistics do not include Palestinian prisoners from Gaza. Our brothers and sisters are being physically and mentally tortured in the most heinous ways imaginable. Hunger is also used as a method of torture and a weapon of war in Zionist prisons.

Not only in Gaza – up to 100 Palestinians are imprisoned every day in the West Bank for no reason. More than 3,500 of them are held in administrative detention (without charge or trial).
