

On **April 17, Palestinian Prisoners' Day**, we are once again called upon to honor and remember our heroes and heroines who were kidnapped by the genocidal Zionist state.

The majority of the 15,700 kidnapped in the West Bank are not prisoners, but hostages, for they **have not even been accused of a crime and have not had a trial.**

In the occupying forces' prisons, Palestinians are tortured, raped, and even murdered. **They are denied basic rights** and their human dignity is systematically violated.

Therefore, we declare the week of April 14-20, 2025, a week of action for Palestinian prisoners.

Join us! Organize information stands, exhibitions, demonstrations, film evenings, and discussion groups. Raise awareness about administrative detention or shed light on the situation of Palestinian children held hostage.

We will promote all actions on our website.
Please let us know what you have planned and when.
